# Vision for JoC

- General forum for communication scholarship - articles examining a broad range of issues in communication theory and research.
- All theoretical approaches and methods of scholarly inquiry are welcome.
- Address critical theoretical and empirical questions in the field of communication that are relevant to scholars within and across specializations.
- Key questions in specific areas of research and/or that connect analytical threads across subfields in communication studies.

- IF Ranking for Communication: 3 out 74 (2013)
- 2YR Impact Factor 2.076 (2013)
- 540 submissions received in 2014
- Current acceptance rate: 8%

- 83% of published articles by corresponding authors based in North America and 12% in Europe (2013).
